

# SILVER THEFT

On the night of **Saturday 8 September, 2018**

a large amount of extremely precious and rare historical Danish silver was stolen from a private residence in the greater area of Copenhagen, Denmark, by very professional engaged burglars.

All objects were professionally photographed and described to the smallest details and can therefore, without doubt, be identified immediately.

For this reason, one of the largest bounties in Denmark has been offered:

**Up to GBP 350,000 for information that could return the stolen objects to their owner.**

## STOLEN SILVER

- Two large round dishes, diameter 39cm, maker Nicolai Langermann, Copenhagen 1750
